Further Information

AT VAUXHALL, WE BELIEVE GREAT CARS ARE FOR EVERYONE.

We believe technology works best when it's not just smart but is also simple and intuitive. Where everyone can feel the instant excitement of electric; can keep themselves and their loved ones safer on the road; and can stay connected to the things that matter most, simply and easily. We call it Vauxhall Pure Technology. No gimmicks, nothing complicated, just technology that makes driving better, easier and more exciting, for everyone.

Our latest Corsa Price and Spec guide outlines the Pure Technology features model by model. Together with all the essential information you need to compare Prices, Technical Information and Specification plus details of our commitment to offer the best in Customer Care.

We're delighted you're considering the purchase of a new Corsa and hope this guide will help you make the right choice.

DESIGN

FEATURES

PURESENSE

- Intelli-LED headlights
- LED daytime running lights
- High beam assist
- Electronic parking brake (auto only, excluding hybrids)
- Lane departure warning with lane keep assist
- Speed sign recognition
- Hill start assist
- Driver drowsiness alert
- Forward collision alert
- Automatic emergency braking with pedestrian detection
- Cruise control with intelligent speed limiter
- Six airbags
- Rear parking distance sensors
- Driver attention warning (Northern Ireland automatic orders only)

PURECONNECT*

- Multimedia infotainment system
  - 10" colour touchscreen
  - AM/FM/DAB digital radio
  - Bluetooth®
  - Wireless Apple CarPlay/Android Auto™
  - USB connection
- Vauxhall Connect
- 3.5" digital colour instrument cluster
- Six speakers

COMFORT AND CONVENIENCE

- Air conditioning
- 3-spoke steering wheel
- 60/40 split-folding rear seats
- Rain-sensitive windscreen wipers
- Automatic lighting control
- Automatic anti-dazzle rear-view mirror
- Electrically operated front and rear windows
- Remote control central locking
- Emergency tyre inflation kit (in lieu of spare wheel)

INTERIOR

- Akoya grey fascia with high gloss black insert
- Fresez black fabric seat trim insert
- Comfort front seats
- Driver's seat (six-way adjustable)
  - Height (up/down)
  - Reach (fore/aft)
  - Backrest (upright/recline)
- Front passenger's seat (four-way adjustable)
  - Reach (fore/aft)
  - Backrest (upright/recline)

STYLING

- Chrome Griffin logo
- Black vizor frame
- 16" diamond cut hi-gloss black alloy wheels
- Black lower side window trim

Design Petrol

16" diamond cut hi-gloss black alloy wheel

#Provisional fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £900.00 (including £150.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price. *Maximum range achieved only with optional Hankook Ventus Eco tyres.

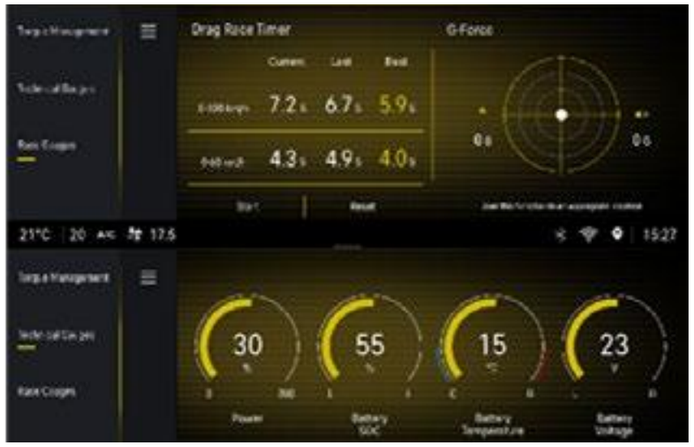
PUREENERGY GSE

CORSA GSE

Welcome to the new age of GSE - Grand Sport Electric. GSE promises to bring a pioneering electric driving experience, great engineering, power, and handling into a car made for daily thrills. Blending driver-focused tuning, captivating design, and true hot-hatch punch, the Corsa GSE is made to deliver even greater performance and even more driving emtion.



ENGAGING DRIVNG EXPERIENCE

Corsa GSE features a host of features to make your drives fun and engaging. Exclusive GSE specific infographics display key data to the driver on the touchscreen, including GSE performance data such as G-force, acceleration, battery management and much more.

THE HOT HATCH RETURNS

Corsa GSE is an electric hot hatch that remains rooted in its rich heritage, with referencences to Vauxhall's legendary Nova GTE, GSi, and Corsa VXR models. The most powerful production Corsa of all time boasts 281PS, 0-62mph in 5.5 seconds, and 345Nm of torque and an electric range of up to 232 miles*.

Corsa GSE is built on chassis centred around the driver. Increased suspension stiffness, reinforced chassis and JTEKT Torsen® Limited slip differential allow for confident handling, whilst the shock axles and shock absorbers allow for improved responsiveness and driver feedback.

*Maximum range achieved only with optional Hankook Ventus Eco tyres.

DESIGNED FOR PERFORMANCE

Corsa GSE features a unique performance seat design with integrated headrest and bolsters to provide exceptional comfort and support. The upholstery is a combination of tartan fabric, a nod to the Nova GTE, and Alcantara®. Vibrant yellow stitiching and seatbelts bring the bold GSE styling into the cockpit.

PUREENERGY ELECTRIC

SINGLE-SPEED ELECTRONIC DRIVE SELECTOR

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the shifter lets the driver select from the following:

- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

DRIVE MODE SELECTOR

The driver can determine the driving style by selecting one of the following modes:

- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency
- **Sport:** for a dynamic drive with a responsive throttle and the highest top speed and torque
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

GSE DRIVE MODE SELECTOR

The driver can determine the driving style by selecting one of the following modes:

- **ECO:** for maximum range and energy efficiency. ECO mode reduces unnecessary energy consumption, limiting top speed to 93mph, power output to 190PS and torque to 300Nm. It provides an efficient yet responsive pedal set-up and steering calibration, with standard ESP calibration.
- **Normal:** balances performance and efficiency for everyday driving. Normal mode delivers up to 231PS, the full 345Nm of torque, and a top speed of 112mph. It provides sport-tuned pedal set-up and steering calibration, whilst maintaining standard ESP calibration.
- **Sport:** unlocks the full 281PS power output for maximum GSE thrill. It features track-optimised pedal set-up, steering and ESP calibration.

CHARGING

Corsa Electric is fitted with a 11kW on board charger and is also equipped with a Mode 3 cable as standard. 115kW 156PS electric models also receive vehicle-to-load functionality as part of their standard on board charger, allowing you to connect and power standard 3-Pin plug appliances from your car*. Additional charging accessories are available at extra cost. For more details please consult your local Retailer.

The charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- **White:** welcome light that helps to light up the area, especially useful in dark conditions
- **Flashing green:** charging in progress
- **Solid green:** charging complete
- **Solid blue:** delayed charging toggled; changes to flashing green when charging commences
- **Solid red:** malfunction

The driver may also choose from three settings:

- **Immediate charging (the standard setting):** Starts charging as soon as the vehicle is docked for charging
- **Delayed charging:** This is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time
- **80% charging limitation:** This allows you to set the charging limit for your Corsa Electric to only charge to 80%. This can help with prolonging the life and capacity of your battery.

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed either via MyVauxhall App or by using the infotainment system.

*Please note, vehicle-to-load adapter does not come as standard and is a chargeable accessory. Please contact your local Vauxhall retailer for more information.

PUREENERGY ELECTRIC

DRIVETRAIN – ELECTRIC	50KWH	51KWH	GSE 51KWH

VED costs	£10	£200

The Corsa Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

*WLTP preliminary. **5 hours (50kWh)/5 hour 15 minutes (51kWh). †Maximum range and energy consumption achieved only with optional Hankook Ventus Eco tyres.

1.2 (145PS) Turbo Hybrid e-DCT6 auto	133	8.6	60.1 (4.7)	61.4(4.6)	104	106	£405	£200	26%

#Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

*Correct at time of publication.

SPECIFICATIONS

TRANSMISSIONS

Six-speed manual gearbox
Petrol engine: 1.2 (100PS) Turbo

Eight-speed automatic transmission
Petrol engines: 1.2 (100PS) Turbo

This transmission enables increased drive comfort with improved fuel economy.

DRIVE MODE SELECTOR

Auto-only
The driver can determine the driving style by selecting one of the following modes:

- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency
- **Sport:** for a dynamic drive with a responsive throttle and the highest top speed and torque
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

Manual-only
- **Sport:** available with the six-speed manual transmission featuring sound enhancement as well as a more responsive throttle and steering wheel

Hybrid e-DCT6 auto
1.2-litre petrol engine paired with a new six-speed dual clutch automatic transmission and a 28hp electric motor.

Permanent magnet synchronous electric motor is integrated into the gearbox and produces peak power of 21kW (28hp) and maximum torque of 55Nm.

During deceleration from higher constant speeds, the petrol engine stops and the e-motor acts as a generator to recharge the hybrid system's 48V battery.

Under low torque requirements the e-motor allows short distances to be driven on electric power alone (e.g. when manoeuvring or under 18mph in city traffic). It also assists the petrol engine under acceleration, such as when driving from standstill.

STEERING

- Speed-sensitive power-assisted steering

BRAKES

- Electronic Stability Programme (ESP)
- Traction control
- Drag torque control
- Anti-lock Braking System (ABS)
- Electronic brakeforce distribution
- Emergency brake assist
- Cornering brake control
- Straight line stability control

1.2 (100PS) Turbo, 1.2 (100PS) Turbo auto, 1.2 (110PS) Turbo Hybrid e-DCT6 auto and 1.2 (145PS) Turbo Hybrid e-DCT6 auto
- Front ventilated discs: 282mm diameter
- Rear drums: 203mm diameter (if fitted with manual handbrake)
- Rear discs: 249mm diameter (if fitted with electronic parking brake)

Electric Propulsion 100kW (136PS) auto, Electric Propulsion 115kW (156PS) auto
- Front ventilated discs: 282mm diameter
- Rear discs: 268mm diameter

Corsa GSE

Electric propulsion 50kWh (136PS) Auto	1920	1380	0
Electric propulsion 51kWh (156PS) Auto	1920	1394	0
Electric propulsion 51kWh (281PS) Auto	1987	1554	0

Please note: **Gross vehicle weight** is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 70kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 55kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

COMPANY CAR DRIVER AND FLEET INFORMATION

BENEFIT IN KIND COMPANY CAR TAXATION*

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% ** for Basic Rate, 40% ** for Higher Rate) to calculate your annual benefit in kind tax liability.

BENEFIT IN KIND TAXATION FOR PLUG-IN HYBRID*

For Plug-in Hybrid vehicles that are registered between 1 January 2025 and 5 April 2028 and fall under emission standard Euro 6e-bis, the Benefit in Kind banding will be determined by electric range.

GENERIC EXAMPLE:

Electric vehicle: 0g/km CO_2

On-the-road RRP	£23,985.00
Deduct: Vehicle Excise Duty	-£10.00
New vehicle first registration fee	-£55.00
Effective list price	£23,920.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£24,520.00
Car benefit charge 2026-27 tax year (4%)	£980.80
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£196.16
Higher Rate (40%) tax payer	£392.32*

* Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.

** Excludes residents of Scotland.

170+	–	37%

VEHICLE EXCISE DUTY†

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty, shown in the table below, is payable on all new cars. From the second license year, the standard rate of vehicle tax will apply.

EXPENSIVE CAR SUPPLEMENT

PETROL, DIESEL and ALT. FUEL VEHICLES
Petrol, diesel or alternative fuel vehicles registered on or after 1 April 2017 with a list price over £40,000 (including factory-fitted options) will attract the standard VED rate plus the Expensive Car Supplement for five years, starting from the second license year.

ELECTRIC, ZERO EMISSION VEHICLES
Electric / zero emission vehicles registered on or after 1 April 2025 with a list price over £50,000 (including factory-fitted options) will attract the standard VED rate plus the Expensive Car Supplement for five years, starting from the second license year.

CO_2 (G/KM)	PETROL/ DIESEL (RDE2)/ ALTERNATIVE FUEL/ZERO EMISSION CARS	DIESEL CAR (RDE2)
0	£10	£10

FURTHER INFORMATION

ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £900.00 (including £150.00 VAT), 12 months' Government Vehicle Excise Duty and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Please note: Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

CUSTOMER CARE COMMITMENT

For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

VAUXHALL ASSISTANCE

Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended** to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free† phone call away, 24 hours a day, 365 days a year!

LEASYS

LEASYS UK

Leasys is the proud Business Contract Hire partner of Vauxhall and consequently, can provide quick vehicle delivery to keep your business mobile. Specialised in Medium to Long-Term Leasing options and Fleet Management solutions for businesses of all sizes, Leasys lead mobility by offering sustainable and innovative solutions designed around customers, for a best-in-class experience. Their team of experts can personally support you and provide dedicated consultation. Leasys is equally owned by Stellantis and Crédit Agricole Consumer Finance and is a member of the British Vehicle Rental and Leasing Association (BVRLA). For further information, please contact your local Vauxhall Retailer or visit **leasys.com/uk**

EXPENSIVE CAR SUPPLEMENT

Electric and zero emission vehicles registered on or after 1 April 2025 with a list price exceeding £50,000 will attract the standard rate, plus Expensive Car Supplement for five years from the start of the second license.

Petrol, diesel or alternative fuel vehicles registered on or after 1 April 2017 with a list price exceeding £40,000 will attract the standard VED rate plus the Expensive Car Supplement for five years, starting from the second license year.

IN THE EVENT OF AN ACCIDENT

Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/owners/information-and-safety/accident-management.html**

VAUXHALL FLEXCARE – SERVICE PLANS AND EXTENDED WARRANTY

Designed for your peace of mind. A collection of extended warranty and service plans to match the way you drive.

EXTENDED WARRANTY

An extended warranty for your Vauxhall offers you similar cover for material or manufacturing defects beyond the original warranty period on the vehicle. By choosing an official Vauxhall Extended Warranty, we guarantee that any repairs you need are carried out by Vauxhall trained technicians using genuine Vauxhall parts.

SERVICE PLANS

There's no need to worry about budgeting for your next service. Simply take out a Vauxhall Fixed Price Service Care Plan.
